

# ImplementationPlan.md

Version: 1.0.0 Target: 0.142.0-Beta

## 1. File Identification

- AIAgentGuidance/AIAgentUsersGuide.md (New File)
- Docs/GeminiWorkflowUsersGuide.md (Delete)

## 2. Surgical Changes

This plan creates the definitive, human-readable User Guide for the new "Disconnected State Machine" workflow and removes the obsolete legacy guide.

### AIAgentGuidance/AIAgentUsersGuide.md (New)

1. **Create File:** Initialize with the following structure:
  - 1. **Philosophy:** Explain "State Discipline," "Context Pollution," and the "Clean Room" concept.
  - 2. **The Three Roles:** Define Analyst, Architect, and Builder.
    - *Analyst:* Input = Bundle + Workflow. Output = Strategy.
    - *Architect:* Input = Chat Context. Output = Kits. Constraint = Halt.
    - *Builder:* Input = Trinity. Output = Code.
  - 3. **The Standard Workflow Loop:**
    - Step 1: Analysis (Discuss).
    - Step 2: The Architect Trigger (Generate Builder Execution Kit).
    - Step 3: The Air Gap (Save & Upload).
    - Step 4: Execution (The Builder & The Trinity).
    - Step 5: The Reset (Act as Analyst).
  - 4. **Artifact Reference:**
    - *The Trinity:* builder\_bundle.txt + ImplementationPlan.md + AIAgentWorkflow.md.
    - *The Handoff Kit:* ArchitectureRoadmap.md + ArchitectHandoff.md (Optional for Analyst).
  - 5. **Command Line Interface:** List the exact string literals for Generate Builder Execution Kit, Act as Builder, and Act as Analyst.

### Docs/GeminiWorkflowUsersGuide.md (Delete)

1. **Delete File:** Remove this file from the project to prevent documentation drift.

### **3. Surgical Change Verification (diff)**

*N/A - File Creation and Deletion only.*

### **4. Affected Modules Checklist**

- AIAgentGuidance/AIAgentUsersGuide.md

### **5. Pre-Flight Check**

- **Inputs:** Chat context requirements.
- **Expected Outcome:** A comprehensive "Owner's Manual" for the AI Agent workflow.
- **Mental Walkthrough Confirmation:** Verified.
- **State Confirmation Procedure:** Will require Confirmed.
- **Backward Compatibility:** N/A.
- **Refactoring Impact Analysis:** N/A.
- **Surgical Modification Adherence:** Confirmed.
- **Syntax Validation:** Markdown checked.

### **6. Post-Generation Verification**

I have generated a plan to create the AIAgentUsersGuide.md and delete the obsolete GeminiWorkflowUsersGuide.md.
